

Sandhya Budur

Android Developer

8331090092 | sandhyabudur@gmail.com | #1/1360, HBS Colony, Yemmiganur Kurnool(Dt.)

Summary

Experience in design and development of android applications. Owned and was responsible for implementing and designing user work flows to android applications.

Experience

Android Developer, AppCare, Hyderabad

[Sep 2017- Present]

- **Eagle Boys Pizza:** It's a pizza delivery app.
 - Planned, designed, developed and tested the application.
 - Used **volley library** to integrate the web services.
 - <https://play.google.com/store/apps/details?id=com.appcare.eaglesboys&hl=en>
- **ABN (Alumni Business Network):** An app meant to communicate and do business activities with other people in your network.
 - Implemented the given designs into **UX**. App has the feature to search for the people based on the services they offer and communicating them.
 - It has other features like **in-app purchasing, firebase push notifications** and **google ads**. using Ad mobs.
 - Used **retrofit library** to integrate the web services.
 - <https://play.google.com/store/apps/details?id=com.baw.abn>
- **Express Delivery:** An app to order the paints and other related products.
 - Implemented the application workflow from designers into an attractive UX.
 - Followed the **MVP** architecture and **Butter Knife** library for better maintenance.
 - Added **Live tracking** for the orders placed based on the delivery boy location.
- **Rider Application:** It's an app for the delivery boys of Express Delivery app mentioned above.
 - This has features like **barcode scanning** to assign the orders to the specific driver. And the user can track the order from Express Delivery app.
